

PROFESSIONAL EXPERIENCE

Barclays | DevOps & Cloud Engineer 07/2023 - Present | Hybrid

- Developed **DynamoDB and DocumentDB Backup and Restore** Solution for Disaster Recovery within RTO/RPO thresholds, presented in barclays design forum adopted Barclays-wide, ensuring 100% recovery compliance.
- Automated **1,500+ AWS CloudWatch alarms** creation within less than 1 min, improving system monitoring and alerting.
- Led **multi-region** deployment for Arrow Card using **ECS** microservices, improving High Availability and reducing latency for global traffic patterns.
- Built secure **CI/CD pipelines** using **GitLab and Jenkins**, integrated with Security scanning tools **SonarQube, Veracode, and Prisma** for vulnerability checks, reducing deployment failures by **30%**.
- Executed No-Downtime Deployments: Integrated **Blue-Green and Canary strategies** into the system, advised leadership, aligned cross-domain teams, and ensured uninterrupted user experience -earning Barclays-wide recognition.
- Reduced AWS operational cost by **40%** by creating **auto-discount tagging** and **EC2 auto-shutdown** during non-working hours.
- Created real-time **AWS Health & Arrow Card Journey Dashboards** for 10+ services using CloudWatch, logs, metrics, and alert
- Enhanced alert accuracy by **80%** by implementing alert **suppression & aggregation**, reducing false positives
- Automated **EC2 AMI refreshes** to keep patched, consistent images, improving security compliance and reducing
- Bootstrapped multiple AWS accounts with secure **VPC Networking, IAM Policy, and foundational infra**.
- Other automations: **ECR-Nexus sync, cloud Infra inventory** tracking, and **prod vs non-prod comparisons**.

Finarkein Analytics | Backend Developer Intern 04/2023 - 06/2023 | Hybrid

- Built and updated **REST APIs** for the FIP side in the Account Aggregator ecosystem to enhance secure data sharing.
- Implemented **Kafka queues** for managing **consent-based data flow** between financial information provider and users.

TECHNICAL SKILLS

DevOps: terraform Infrastructure-as-Code (IaC), kubernetes, Jenkins, GitLab CI/CD, Docker, Nginx, Linux, GIT, Bitbucket, Observability, DevSecOps, Incident Management

In-Depth AWS Knowledge: ECS Containerization, EC2, EKS, Lambda, Step Function, DynamoDB, DocumentDB, Auto Scaling, API Gateway, S3, Service Catalog, CloudFormation, VPC, IAM, X-Ray, CloudWatch, EventBridge

Languages: Python, JAVA, JavaScript, TypeScript, C, C++, Bash

AI: BedRock, A2A, MCP, Vector DBs, Workflow Automation, Prompt Eng, RAG, OpenAI API

Back-End: FastAPI, Node Js, Express Js, Spring Boot, MySQL, PostgreSQL, MongoDB, Postman

Front-End: HTML, CSS, JS ES6+, React Js, shadcn UI, tailwind css

CERTIFICATIONS

AWS: AWS Certified Solutions Architect – Associate (900/1000)

KodeKloud: Docker Training Course

AWS: AWS Certified Solutions Architect – Professional (910/1000)

KodeKloud: Amazon Elastic Container Service (AWS ECS)

KodeKloud: Terraform Training Course

EDUCATION

Bachelor's Degree in Information Technology | Pune Institute of Computer Technology (PICT PUNE) GPA: 9 | 2019 - 2023

ACHIEVEMENTS

- 1st Place** Reimagined: The Next Gen Hackathon Partnered with Microsoft Azure
- 2nd Place** GenAI Hack 2.0 Global Hackathon, Barclays (285 teams, 2,000+ participants, 12 locations)
- Kisan ki Awaaz made to **Top 50 Google Cloud Agentic AI Day 2025** (57,000+ developers, 9,100+ ideas)
- 3rd Place** GenAI Hack 2.0 Global Hackathon, Barclays (285 teams, 2,000+ participants, 12 locations)
- Received Barclays BUK Tech India **Engineering Star Award** for DynamoDB Backup Restore Solution

PROJECTS

🔗 **Shello CLI** | [Release](#) 🔗 | **Skillset:** Python, AI, jq, lang, rich, CLI, MCP

- AI-powered CLI companion that troubleshoots issues across AWS, GCP, Azure, Docker, infrastructure, Prometheus, Grafana, opentelemetry and infrastructure through natural conversation.

🔗 **OffersHub** | [Live](#) 🔗 | **Skillset:** OpenAI, React, TypeScript, Python, FastAPI, PostgreSQL, Docker, Tailwind, Azure

- AI-powered offer lifecycle management platform for financial services enabling personalized, targeted promotions with seamless creation, approval workflows, and customer engagement tracking.

🔗 **Magic Youth** | [Live](#) 🔗 | **Skillset:** AI, React, TypeScript, JavaScript, Express JS, MongoDB, Docker, Tailwind

- Developed Magic Youth platform for Magic Bus India Foundation, connecting 10K+ underserved youth with mentors and achieving 85% retention and 70% job placement through AI-driven support and community engagement
